- CRUDE LABEL ARAMIDIC FABRIC

BAG MADE IN ITALY

BAD SCULPTURES by ARMATURE GLOBALE

The raw and crude quality of garments is reflected in the as-is presentation of study prototypes, bad-sculptural mock-ups using salvaged plastic mannequins, developed by Armature Globale. A celebration of formlessness and anti- composition, a reconciliatory and severe reckoning of times, the peaceful trope of chaos.

The project re-interprets traditional sartorial mannequins and retail presentation of neutral human figures for the display of clothes.

VIDEO :Amplified Fabric Operations

A video where fabric is amplified with contact microphones and recorded via cameras in order to produce a concrete experimental visual orchestra.
